

A collection of Raspberry Pi accessories is displayed on a white background. The central item is the 'Official Raspberry Pi Keyboard & Hub', which is a red and white box. To its left are two smaller boxes: one for the 'Raspberry Pi Official Mouse' and another for the 'Raspberry Pi Official Headset'. In front of the keyboard box is a red USB hub with four ports, a small white USB drive, and a coiled white cable. To the left of the hub is a book titled 'The Official Raspberry Pi Beginner's Guide' by Gareth Halfordree, 2nd Edition, published by No Starch Press. The book cover features a colorful illustration of a city scene with various vehicles and buildings.
