| Hersteller:      | seeed        |
| Herkunftsland:   | China        |
| Zolltarifnummer: | 84733020     |
| Gewicht:         | 0.013 kg     |

The Servo motor is a rotary actuator that allows for precise control of angular position which makes them suitable for use in closed-loop systems where precise position control is needed and is commonly used in electronics. Grove - Servo is a bonus product for Grove lovers as we regulated the three-wire servo into a Grove standard connector. You can plug and play it as a typical Grove module now, without jumper wires clutter.
