

A black SMC S4303R servo motor is shown. It has a black plastic body with a white label that reads "SMC S4303R" and "MADE IN CHINA". A red and black cable is connected to the servo, and a black horn is attached to the top. A small white label on the bottom left of the servo reads "指針无效" (Pointer Invalid), "Voltage Error", and "If Remounted".

The image shows a black Pololu 12V 100A 100mm Servo Motor. The servo is shown in two states: assembled and disassembled. The assembled servo is on the left, with a red and black cable attached. A coin is placed next to it for scale. The disassembled parts are shown on the right, including the servo horn, gears, and other internal components. The background is white.
