-----------------	----------

A digital multimeter with a black casing and a red display. The display shows two readings: 5.13 V (volts) in red and 0.00 A (amperes) in blue. The device has a USB port on the left side with a USB cable connected. The text "USB Detector" is printed on the front. There are also labels for "OUTPUT 1" and "OUTPUT 2" with arrows pointing to the top and bottom respectively.

[illegible][illegible]

Output1: •Data communication function
•Charging voltage output
•Support QC2.0/3.0

Output2: •Built in automatic identification IC
•Identify Apple or Android System

Note:

When OUTPUT1 connects to QC2.0/3.0,
OUTPUT2 cannot connect to any device.
